

The traditional application of falconry has been to take a Bird of Prey, train it and then attempt to catch wild quarry with it. Although our guided walks with hawks experience, is not a hunting expedition, it is a leisurely stroll through the majestic settings of Killarney with falconer and hawk/or team of hawks and shows the ability of trained birds and their relationship with their human partners. The participants will have hands on experience with the hawks, you will be able to handle and fly the hawk yourselves under instruction from Killarney Falconry's falconers. We finish up with an owl encounter where you can handle & hold an owl.
